Professional Summary

Full-stack developer with 4+ years of professional experience delivering production-grade web applications and websites — from custom WordPress/WooCommerce platforms to modern React.js and Next.js applications backed by Node.js, Prisma and PostgreSQL. Comfortable owning a project end-to-end: pixel-perfect implementation from Figma/Adobe XD, REST API and payment-gateway integration, technical SEO and Core Web Vitals, and WCAG accessibility compliance. Currently building a multi-tenant SaaS booking platform for the Swedish cleaning industry (Next.js, Express, Prisma, Stripe Connect) alongside ongoing freelance client work.

Core Skills

React.js & Next.js | Node.js & Express | WordPress & WooCommerce | PHP (OOP) | TypeScript & JavaScript (ES6+) | Prisma, MySQL, PostgreSQL & MongoDB | REST API & Payment Gateway Integration | Tailwind CSS & SCSS | Core Web Vitals | Accessibility (WCAG) | Technical SEO | Figma & Adobe XD to Code | Git & Version Control | Cross-Browser Compatibility

Professional Experience

Data Center Technician, Diginext Scandinavia AB

Aug 2025 – Present

- Monitor and maintain critical data center infrastructure — servers, network hardware, PDUs, UPS systems and structured cabling — classifying and escalating incidents per operational procedure.
- Contributed to the Falun Eco Data Center, one of Sweden's leading green data center builds, helping deliver full infrastructure deployment on schedule.

Freelance Full-Stack & WordPress Developer, Self-Employed — Remote

Jan 2024 – Present

- Plan, build and manage complete websites and eCommerce platforms end-to-end for clients including T Seka Ceylon, Tcleaner and Cross and Tools — architecture, SEO strategy, UX and ongoing support.
- Build scalable React.js component systems (Hooks, Context API) and bespoke WordPress themes/plugins (PHP OOP, ACF, custom post types, Gutenberg); integrate REST APIs, payment gateways and AJAX-driven interactions.
- Optimize Core Web Vitals, page speed, technical SEO and analytics (GA4/GTM) across all delivered projects.
- Designing and building the Cleaning SaaS Platform, a self-directed multi-tenant booking/ops system (Next.js, Express, Prisma, Stripe Connect) with RUT tax-deduction handling and a super-admin panel.

Plugin Developer, BlinQ Software

Oct 2023 – Mar 2024

- Built custom WordPress plugins, including an API-integrated product system that fetches and displays live server data in real time.
- Developed custom admin dashboards and frontend templates; improved automation and maintainability through structured WordPress Hooks & Filters (PHP OOP, MySQL).

WordPress & Frontend Developer, Surge Global — Digital Agency

Jan 2023 – Jul 2023

- Built fully customized WordPress/WooCommerce websites from Figma/XD designs in close collaboration with designers, UX specialists and project managers within a deadline-driven agency workflow.
- Applied on-site SEO best practice (semantic HTML, schema markup, sitemaps) and conversion-focused design across all deliveries.

Web Developer Intern, Builtapps Business Solutions

Oct 2021 – Oct 2022

- Developed WordPress websites and collaborated on a Flutter mobile app within an agile team, gaining full-cycle experience across database design, backend logic, frontend implementation and SEO-focused content structuring.

Key Projects

Cleaning SaaS Platform (Personal / Portfolio Project) — Multi-tenant booking & operations platform for Swedish cleaning companies. Next.js, Express, Prisma, PostgreSQL, Stripe Connect payouts, RUT-avdrag claim workflow, super-admin panel.

One Playground (oneplayground.com.au) — High-performance fitness/lifestyle WordPress platform; custom theme, CPTs, Core Web Vitals optimization, mobile-first build.

Spry (spry.so) — Conversion-focused business site; flexible content architecture, Core Web Vitals, analytics & lead-capture integration.

AB-Cube (ab-cube.com) — Corporate WordPress site; custom theme architecture, full SEO hygiene, maintainable structure for non-technical editors.

Striker (Final Year Project) — Football player recommendation system: Python/Pandas ML model, Node.js API, Angular frontend.

Education

BSc (Hons) Computer Science | University of Westminster (via IIT Sri Lanka) | 2018 – 2022

Certificate in Computer Science | National Institute of Business Management (NIBM)

Languages

English — Professional fluency | **Sinhala** — Native | **Swedish** — Actively learning (A2/B1)

Technical Skills

- **Frontend & Backend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Node.js, Express, PHP (OOP), HTML5, CSS3/SCSS, Tailwind CSS
- **CMS & eCommerce:** WordPress (custom theme & plugin dev), WooCommerce, ACF, Gutenberg, custom post types, payment gateway integration
- **Data & Tooling:** Prisma, MySQL, PostgreSQL, MongoDB, Git, Figma & Adobe XD to code, Docker, Vercel
- **Performance & Quality:** Core Web Vitals, WCAG accessibility, technical SEO, cross-browser testing, REST API & AJAX

Soft Skills

- **Delivery-focused** — full project ownership from brief through to launch and ongoing support.
- **Collaborative** — works closely with clients, designers and project managers within agency and freelance workflows.
- **Detail-oriented** — high standards for code quality, visual precision and performance on every project.
- **Continuous learner** — picks up new tools and frameworks quickly; stays current with the industry.
